

Virtualization and Cloud Computing Awareness Course - E-Learning

Course Description:

The Virtualization and Cloud Computing Awareness course is a 4-hour, interactive, online learning experience. This self-paced e-learning course is ideal for those who require a basic understanding of the virtualization and cloud computing concepts in a time-efficient manner. It has been designed for participants who need a basic awareness of the concept as general interest or as part of a larger program initiative, as opposed to the more robust Virtualization and Cloud Computing Foundation certification courses.

Learning Objectives:

At the end of this course, participants will be able to:

- Understand the common terms and definitions of virtualization and cloud computing and be able to give examples.
- Comprehend the technical capabilities and business benefits of virtualization and cloud computing and learn how to measure those benefits.
- Describe the landscape of different types of virtualization and understand the different types of clouds.
- Illustrate how key application features can be delivered more easily on virtual infrastructures. Explain typical steps that lead to the

Audience:

The Awareness course will be of interest to:

- IT and business executives and staff who need an overview of the virtualization and cloud computing concepts.

Prerequisites:

None

Course Student Material

- Online, self-paced instructional material available for 90 days.
- Get Ready For Cloud Computing book available as reference material.

About TechnoLava LLC:

TechnoLava LLC is focused on IT Service Management and Cloud Computing Solutions. We provide ITIL and Cloud best practice consulting, training, assessment and implementation services. Our ITSM Maturity and ISO20000 Assessment services will develop a roadmap to ensure process improvement across the organization. TechnoLava provides Full Lifecycle Development, to include Requirements Analysis, Process and Workflow development, Training and Design and Implementation of the solution. TechnoLava enables immediate benefits to Cloud and IT Service Management solutions by delivering predictability, security, availability and reliability to your operational environment.
